Subject: RE: Atmospheric Water Generator/Call-in # [Ex. 6 - Personal Privacy] Code: [Ex. 6 - Personal Privacy]

Ardra indicated that a question was raised in yesterday's meeting regarding any testing or verification of the Water Gen technology prior to post-hurricane deployment activities with FEMA. I spoke with Ed Russo yesterday evening who indicated that he had reached out directly to the FEMA Administrator, Brock Long, who put in him contact with Jeff Dorko within FEMA to work logistics, who subsequently linked Water Gen with Susan McNamee (sp>?) of the Red Cross in DC regarding more specifics. So, in response to the question, based on my conversation with Ed, no formal testing or verification was performed as part of the deployment.

-----Original Appointment-----

Hi all,

I apologize for lateness, but in anticipation of our call this afternoon, here are the notes from last week's call:

- EPA attorneys are waiting for comments from Water-Gen attorneys in order to finish the Material Transfer Agreement (MTA) and other required documents
- EPA is in preliminary discussions with two other companies that may be interested in a CRADA.

Ex. 5 - Deliberative Process

- Attached are some information on what is being produced by the CRADAs and the timeline for that

Link to CRADA announcement

https://www.epa.gov/sites/production/files/2017-08/documents/awg_announcement_2.pdf

Talk to you this afternoon!

Elise
